

IEEE-EMBS Micro and Nanotechnology in Medicine Conference (MNM 2016)

“Translating Technology from the Bench to the Bedside”

Waikoloa, Hawaii

12-16 December 2016

Partnership Opportunities

Various biomedical grand challenges facing our society and the world can be addressed by interfacing biology and medicine with micro and nanoscale technologies. These technologies hold great potential to impact early diagnosis, therapeutics, and management of disease. IEEE EMBS is sponsoring the first conference on Micro and Nanotechnology in Medicine to foster interaction between scientists, engineers and medical researchers in the context of real-world medical needs and issues. The Conference will promote vigorous and open dialogue towards the development of cutting edge technologies for faster, more quantitative, and less expensive biomedical solutions using advances in micro and nanotechnology. **For more details, please visit: <http://mnm.embs.org/2016/>.** Please select one of the following options.

- Platinum** (\$10,000+)
 - Full page color advertisement in the conference program
 - Full page handout in the conference bag
